Dear Paul,

I am a graduate in your TAXI DRIVERS Orientation Class recently. **THANK YOU** for teaching me to become a Passenger Vehicle Driver with safe and effective skills to serve our community in the San Francisco Bay Area.

On October 12, 2008. I received a service request call from a client (Jason), Location: Monster Park for pickup
Time: Call Received from [redacted] at 5:18 pm / 5:35 pm to my Cell Phone.

My reply to Jason is going to the Taxi Cab Stand and waits for the next available Taxi. He then ask me to pick him up for a personal issue, insisted that he will take the accountability for any problems with me to pick him up. My reply to him was this would be a Pre-arrange pickup service. I mentioned him to walk toward the hill and meet me at the intersection 2 blocks leaving the park from the Taxi Stand. When I arrived at the pickup location, as he was getting into the cab, a police officer approaches me, and said to me, "you have to go to Taxi Stand for passenger pickup; I want you to come to the Taxi Division on October 14, 2008 for a violation review. I told the officer this is a Pre-Arrange Pickup request from a customer.

After I drop off my customer, I then return to pickup 2 more customers' trips at the park.

Officer Badge # 922, she was on duties at the Taxi Stand. I ask her with advices on TAXI Cab's passenger pickup procedures at Candlestick Park. She listens very attentively to me and provided the answers to my questions.

I just wanted to let you know Officer Badge # 922 did an excellent job. She managed to combine her experience and knowledge, a high level of diligence and customer service. She is a great asset to your team and your organization.

TAXI COMMISSION

Dear Jordanna!

I am writing you this letter to inform you and to get ahead of any rumors and conspiracy theories in regard to SF Town Taxi and SF Town Taxi front office.

It is been known to me and the SF Town Taxi staff that one of the old Town Taxi cabs that was deleted and taken out of service in January of this year, was sold to a third party and since then operated as an illegal cab. This vehicle has no numbers or distinguishing SF Town Taxi insignia, but unfortunately still has our color scheme on its body.

This is a 2001 FORD Crown Victoria with the License Plate # 7 and the VIN # 2FAFP73V

This vehicle is to be impounded and the driver arrested upon locating the vehicle.

It is not necessary to call us back due to the lack of any further information on this matter.

Side note:

The driver of SF Town Taxi Cab # 12, Daniel Pham, A card # 54619, Driver License # C was terminated effective 16:00 hours October 14, 2008 for egregious and unprofessional conduct damaging The reputation of an entire hard working San Francisco cab drivers.

Please call me at 415- if you will have any questions pertaining to this matter.

Sincerely,

Jacob
