

Union Square/Market Street Utility Relocation Traffic Detours

The two options for traffic detours will take place when utility relocation begins for the Union Square/Market Street Station.

We hope this will help guide you as you plan your trip around the construction activity in the coming months.

Here are two options as you head south after exiting the Stockton Tunnel:

Option 1 (Purple line):

1. Turn right at Sutter Street
2. Take the second left onto Mason Street
3. Turn left at Ellis Street
4. Slight right at 4th Street

Option 2 (Blue line)

1. Continue onto Stockton Street
2. Turn left at Post Street
3. Turn right at Montgomery Street
4. Slight left at New Montgomery Street
5. Turn right at Howard Street
6. Left on 4th Street

*Please note: Ellis Street will be turned into a two-way street between Mason and Cyril Magnin streets.

Businesses will remain open during construction activity.

Garages within the construction zone will also open and accessible.
