MUNI'S MISSION

Working together effectively, we serve our community. We provide safe, reliable, clean, accessible, and convenient transportation to any destination in the City. We are dedicated to creating the most satisfying experience possible for our employees and our riders.

By placing people first, Muni strives to offer the maximum opportunity for employees to contribute their best and achieve career growth. We are building a model urban transit organization, internationally recognized for excellence.

We treat each other with respect; develop trust; encourage mutual understanding; and value our diversity. We promote accountability and take pride in our work.

Above all, we are committed to living this Mission daily in our relationships with each and everyone in our community.

MUNICIPAL TRANSPORTATION AGENCY FY2005 GOALS

1. Advance Muni's and DPT's Missions at all levels and divisions within the organization by focused communication, involvement and recognition.
2. Cultivate security awareness and preparedness through drills, training and improved coordination with transit and government agencies.
3. Improve safety for employees, passengers, pedestrians and motorists by training; increased awareness; and improved equipment, facilities and traffic control.
4. Achieve service standards and performance measures, including:
 - On-time performance
 - Service availability
 - System reliability
 - System performance
 - Staffing performance
 - Customer service
5. Improve movement of people and goods throughout San Francisco by close communication and coordination between the Municipal Railway and the Department of Parking and Traffic.
6. Promote professional growth and development for all employees through available training opportunities.
7. Progress the Third Street Project in accordance with the FY05 baseline schedule and budget, including: ongoing construction of line segments and Metro East, continuing preliminary engineering work for Phase II, the Central Subway, and securing funding and community support for the project.
8. Maintain a balanced budget and build a foundation for long-term financial stability through aggressive pursuit of all revenue sources and improved management of resources.
9. Improve customer service by increasing access to timely and accurate information about all MTA services and by speedy resolution of complaints and issues.
10. Increase the use of all alternative modes of travel and reduce travel time without increasing congestion.
11. Finish implementation of the Transit Preferential Streets treatments for Inner Geary, and continue planning and design for transit improvements on Geary, Van Ness, and other corridors, in accordance with the Vision Plan.
12. Continue implementation of the TransLink universal fare card system.

BUDGET INFORMATION, PROCESS, GUIDELINES AND TIMELINE

The operating budget of the Municipal Transportation Agency – Municipal Railway Department (Muni), is proposed by the Executive Director and approved by the Municipal Transportation Agency (MTA) Board of Directors and the San Francisco Board of Supervisors. The Executive Director and the MTA Board certify that the budget is adequate in all respects to allow the department to make substantial progress toward meeting the goals, objectives, and performance standards established pursuant to Section 8A.103 of the San Francisco City Charter.

The FY2005 approved operating budget was created in the context of continued economic difficulties. FY2005 represents the fourth consecutive year of economic downturn. Beginning in FY2002, Muni's revenue sources began to decline, as they are sensitive to economic conditions and factors such as employment levels and tourism levels. At the same time, the fixed costs associated with Muni's core services have continued to rise, such as salary expenditures and fuel costs.

Over the past four years, Muni has made every effort to reduce its expenditures in order to balance its budget. In addition, in FY2004, with rider satisfaction levels increasing and continued progress towards meeting Muni's service standards, the agency looked to both revenue and expenditure solutions in order to balance its budget, adopting a fare increase as well as increases to parking fines, fees, and rates. In FY2005, after implementing expenditure and revenue measures over the previous years and facing a \$32 million deficit, Muni had few viable options remaining to balance its budget. As a result, the FY2005 budget includes difficult measures such as personnel reductions, service adjustments, and the use of capital funds.

While Muni has made progress in increasing its efficiency and maximizing its revenues in recent years, both of these strategies will need to be sustained in order for Muni to operate effectively going forward. In addition, it is important to recognize that a baseline level of resources is necessary in order to sustain service levels. Looking forward, it will be critical to align resources with service provision.

Process

The San Francisco Charter, as amended through Proposition E, approved by the voters in 1999, establishes the Municipal Transportation Agency (MTA) as an enterprise fund department of the City and County of San Francisco. Overseen by the MTA Board of Directors, Muni and the Department of Parking & Traffic make up the MTA and each also functions as an enterprise fund department. In establishing the MTA as an enterprise fund, a stated goal was to achieve a transportation system that is comparable to the best urban transit systems in the world's major cities. The structure is designed to provide the transportation system with the resources, independence, and focus necessary to achieve this goal. Specifically, the Charter amendment intended to strengthen Muni's authority to manage its employees, establish efficient and economical work rules and work practices that maximize Muni's responsiveness to public needs, and protect the right of Muni to

manage its employees. In addition, the amendment helps to provide for a predictable and stable level of funding.

Muni receives a yearly transfer or support from the General Fund, as specified by formula in Prop. E. The transfer amount is based upon the amount given in a base year, plus the percentage change in discretionary revenues for the General Fund.

Muni's budget process is also established in the Charter. After an internal review process, the Executive Director presents the proposed annual operating budget to the MTA Board and the Citizen's Advisory Council (CAC) for review and comment. A public hearing is also held. The MTA Board must approve the budget and forward it to the Mayor and the Board of Supervisors by March 1. As long as Muni stays within the revenue formulas outlined in the Charter, and does not ask for additional General Fund resources or support, the Mayor must forward the budget to the Board of Supervisors as submitted. The Controller's Office is charged with certifying the revenues as presented by Muni. Once received from the Mayor, the Board of Supervisors has three options with Muni's budget. It may approve or reject the budget, but not modify it. Rejecting the budget requires a two-thirds vote. Or, if the Board takes no action by August 1, the budget is deemed approved.

Operating Budget

The budget approved by the MTA Board and the Board of Supervisors is Muni's annual operating budget. With a few exceptions, it does not include capital projects. Capital projects are detailed in the Short Range Transit Plan, which is developed every other year. In addition, the operating budget also details positions funded through grant dollars.

USING THE DOCUMENT

The operating budget is a spending management plan for the use of Muni's resources. Through the use of these resources, Muni provides public transportation services within the City and County of San Francisco. In addition, the budget is the vehicle by which Muni recommends allocation of resources to meet Muni's goals and service standards. An accrual basis of accounting is used to develop Muni's budget.

Document Organization

Muni's budget is divided into 16 separate books, offered through electronic media. The first book is a department-level look at Muni's budget, including an overview of its revenues and appropriations (expenditures), and positions. In addition, there are 15 division-level books that give a more detailed picture of each division, by unit.

Independent of the operating budget is Muni's capital budget, which is contained in the Short Range Transit Plan (SRTP). The SRTP is published every two years and is subject to approval by the MTA Board of Directors, and to appropriation approval by the Board of Supervisors.

Budget Organization

Index Codes/Object/Subobject Codes

As required by the San Francisco Charter, Muni's budget is developed as a line item budget. As such it is organized into index codes, which indicate where in the department the funds are allocated, and object and subobject codes, which indicate what type of expenditure is included. This level of detail can be found in the reports that follow the budget narrative.

Positions

COLAs/Labor Agreements/Equity Adjustments

As codified in the San Francisco Charter, the approved budget must contain in it funding to pay for all anticipated or estimated salary adjustments provided in employee Memoranda of Understanding (MOUs), cost of living adjustments (COLAs), and any other pay equity adjustments. (For the rest of the City, that money is added to departmental budgets after approval of employee MOUs.)

Annualization of Existing Positions

Positions that were added in the previous year's budget (FY2004 operating budget), must be annualized to a full 1.0 full time equivalent (FTE) position from the previously budgeted 0.75 FTE position. The incremental costs associated with these positions must also be budgeted. Because no new positions were added in FY2004, there are no position annualization costs in the FY2005 budget.

New Positions

New positions are pro-rated to reflect the portion of the year the position will be on payroll. The default is to budget new positions at 0.75 of a full position, as the recruitment process takes an average of three months. No new positions were added to the FY2005 budget.

Attrition Savings

It is anticipated that normal departmental attrition results in savings. Attrition savings appear in the budget as a negative position count, which is netted against the total positions in the budget. Thus, the total position count for the department reflects the net funded positions for the department, adjusted for attrition savings.

Other Adjustments

Other salary adjustments included in budgeted position expenditures are those to compensate for a year that has 260, 261 or 262 workdays, for automatic step adjustments, and to adjust for positions not at the top salary step. In addition, salary annualization costs represent the cost of wage adjustments that took place during the prior year.

Fringe Benefits

Fringe benefits include health care for active and retired employees, social security and Medicare contributions, City retirement contribution, City-paid employee retirement contribution (City pick-up), and other benefits provided in employee MOUs.

Organization Charts

Organization charts are included in each budget book. These charts reflect the positions and organizational structure of the agency at the time the FY2005 budget was developed.

Terms

Platform

The term “platform” refers to the 9163 Transit Operator classification.

Miscellaneous

When used in reference to employees, the term “miscellaneous” applies to all non-Transit Operator classifications.

Services of Other Depts	232,357	232,357	-
Total Grants Fund	\$ 513,236	\$ 515,332	\$ 2,096
Total	\$ 2,382,238	\$ 1,656,948	\$ (725,290)

The FY2005 budget for Capital Planning & External Affairs (CPEA) shows a net decrease of (\$725,290) due to the deletion of positions, a corresponding reduction in funding for fringe benefits, and reduced funding for non personal services. Slightly offsetting these decreases is an increase in funding for materials and supplies and an increase in allocation for reproduction services.

The net decrease of \$512,286 in the FY2005 budget for salaries is due primarily to the deletion of 7.98 positions to achieve Muni's cost-reduction strategy, and the reallocation of a previously operating-funded position to grant funds to reflect the position's actual responsibilities.

The FY2005 decrease of \$95,343 in fringe benefits is due to reduced social security, health care and insurance costs resulting from a decrease in salary costs for FY2005. Additionally, the reassignment of a previously operating-funded position to the grant-funded budget resulted in a corresponding decrease to the fringe benefit cost.

Non Personal Services decreased by \$110,648 due to the following:

- reallocation of funding for a quality review audit contract to an interdepartmental work order
- reduced rent to reflect a lower rent rate for six months
- reduced allocation for Employee Awards to reflect actual costs
- reduced allocation for taxes, licenses and permits as funding is no longer required.

Materials and supplies increased by \$15,037 due to an appropriation from the Video Fund and the reallocation of funds from Taxes.

Allocated charges reflect an increase in the labor cost abatement associated with the Legislative Affairs staff and an increase in the expenditure abatement from the Video Fund. The budget for Services of Other Departments increased due to an increase in funding for reproduction services to reflect the amount required.

In FY2005, the non-salary budget for the grant-funded section of Capital Planning & External Affairs increased slightly to fund potential move costs associated with the renegotiation of the lease for 1145 Market street.

APPROPRIATIONS AND POSITIONS
DIVISION LEVEL

**MUNICIPAL RAILWAY DEPARTMENT
CAPITAL PLANNING AND EXTERNAL AFFAIRS DIVISION
FY2005 BUDGET APPROPRIATION NARRATIVE**

The Capital Planning and External Affairs Division (CP&EA) manages all aspects of long-range capital project planning; programs funds and applies for millions of dollars in grant funding; acquires, leases, and redevelops property; monitors and advocates for legislative initiatives; and implements the marketing plan for the Municipal Railway Department. CP&EA also participates in regional transportation policy development.

The mission of CP&EA is to plan capital projects; program funds; manage grants for capital projects and real estate needs; and implement various mandates pursuant to voter-approved Proposition E of 1999. These mandates have led to the creation of the Legislative Affairs and Marketing sections within the division.

The Division is organized into eight sections. The Office of Capital Planning and External Affairs comprises of the Deputy General Manager and staff. This office oversees the remaining sections: Real Estate, Capital Planning, Grants, Community and Public Relations, Marketing, Regulatory Affairs and Legislative Affairs.

➤ **Office of Capital Planning & External Affairs-359020**

The Deputy General Manager (DGM) of Capital Planning and External Affairs and staff coordinate and supervise division-wide projects. The Office of the DGM ensures compliance with the laws and policies of federal and state government agencies from which it receives funding.

➤ **Real Estate Management-359028**

The Real Estate Section finds and redevelops land and facilities in which to operate, maintain, and administer Muni's transit service. It also manages and negotiates rent agreements, estimates future real estate needs, manages development projects, and manages advertising contracts. The Real Estate section helps to increase Municipal Railway Department revenues through joint development projects and reduce certain ongoing fixed costs such as rents paid to private property owners. The section maximizes availability and flexibility of capital funding resources and keeps capital projects such as Mission Steuart on schedule.

➤ **Capital Planning-351701, 359021, 359022, 359026**

The Capital Planning Section prepares long-range planning documents and develops long-term programs and projects. The Section works with funding agencies to program funds for future projects. The Section also provides support services to the Division, including contract administration and project control.

➤ **Grants-359024, 359025**

The Grant Section identifies, secures, and manages Muni's grant funds. The focus of this Section is to improve reporting to Muni's funding agencies, improve communications with the implementing divisions within Muni, and maintain and enhance grant revenues for the Department. The Section performs all activities related to applying for, monitoring, and managing capital grants.

➤ **Community & Public Relations-351025, 351026**

The Community and Public Relations Section provides public information to community groups and coordinates media relations. The Section provides public information regarding service changes; responds to passenger correspondence; attends community meetings; organizes employee awards programs; and edits and distributes employee communications.

➤ **Marketing Section**

The Marketing Section develops the Marketing plan and identifies specific programs and projects that promote patronage, improve public and employee perceptions of Muni, and foster better communication with the public.

- Marketing-351732

- Develops the marketing plan as required by 1999's Proposition E to identify specific programs and projects that will promote patronage and foster better communication with the public

- Photography-351029

- Photographs Muni employee award recipients and documents all Muni special events, construction projects and other activities

- Multimedia Services-351030

- Develops and maintains the Muni internet website and provides multimedia materials for use in employee training and public information programs and services

➤ **Regulatory Affairs-359109**

The Regulatory Affairs Section liaises among federal, state, and local regulatory agencies, industry associations and stakeholder groups. Among other responsibilities, the Section coordinates and manages MTA's compliance with Proposition E guidelines and audits; the MTA's relationship with the California Air Resources Board (CARB) and compliance with CARB's vehicle policies; and state and federal regulatory audits. The Section also reviews and negotiates interagency contracts and agreements for regulatory and other compliance issues.

➤ **Legislative Affairs-359038, 351733**

The Legislative Affairs Section develops state and federal legislative objectives and strategy in support of Muni's Capital Improvement Program (CIP) and Short Range Transit Plan (SRTP). The Section provides legislative analysis and recommendations for action by the

MTA Board as appropriate; participates in transit advocacy coalitions and associations at local, regional, state and federal levels; and coordinates the Department's legislative positions with other City departments and partner agencies.

Reassignment	(71,645)
Other Adjustments	<u>(13,787)</u>
Total	<u>\$ (512,286)</u>

Position Deletions **(\$426,854)**

Deletion of 2 vacant positions-(\$93,083)

Two positions in the Capital Planning & External Affairs Division were deleted in the FY2005 budget. These positions were held vacant in FY2003 and FY2004 to meet Muni's department-wide budget demands. As part of the FY2005 budget process, the Mayor's office instructed departments to eliminate some vacant positions and reverse the corresponding attrition savings in order to reduce the departmental attrition savings rate. These position deletions support that request and are anticipated to have minimal impact on direct service provision.

351026-Communications

Service Quality Teams of Muni employees work in the field and provide information to riders about service changes on Muni routes and other important issues. It's the goal of the Community and Public Relations unit to improve Muni's interaction and communications with customers and the general public. The program provides more effective and timely communication, but requires work outside of normal working hours, thus requiring funding for overtime. The FY2005 allocation provides for the same level of service as FY2004.

Approved	Approved	(Decrease)
<u>\$ 188,587</u>	<u>\$ 93,244</u>	<u>\$ (95,343)</u>

This appropriation covers mandatory fringe benefit cost for active miscellaneous employees, including social security, health benefits, and City contributions to retirement. In FY2005, funding for dental coverage, health services and employer contributions for Social Security and Medicare decreased due to a reduction in the number of budgeted positions. City employees will continue to pick up the 7.5% employee retirement contribution in FY2005.

351701-02703, CPG Planning, Independent Quality Review \$-0-

In FY2004, this item funded a bi-annual independent quality review as required under 1999's Proposition E. The decrease in FY2005 is due to a reallocation of funding for a quality review audit from this line item to a work order with the Controller's Office. As a result of Proposition C, approved by the voters in November 2003, the Controller's Office will establish a departmental audit function.

351732-02799, Marketing, Specific Marketing Campaigns \$37,000

This appropriation funds specific marketing programs and projects, as identified in the marketing plan required by 1999's Proposition E. These programs will promote patronage and foster better communication with the public.

351732-02799, Marketing, Internal and External Surveys \$20,000

This allocation funds employee and rider satisfaction surveys, as required by 1999's Proposition E.

351733-02799, Legislative Affairs \$50,000

This allocation provides for specific expertise in federal transportation and transit legislation to assist Muni in obtaining federal New Starts funding for the New Central Subway project and other projects.

351701/05400, CPG Planning Unit, SRTP 11.5% Local Match

Muni receives a federal planning grant used to offset costs associated with staff time and materials needed to produce the Department's Short Range Transit Plan. The required funding allocation covers an 11.5% Local Match required to receive the federal grant. The decrease in FY2005 is due to a decrease in the amount of Local Match required.

351026-07999, Communications (\$125,000)

This allocation includes funds provided to support Muni's Marketing program, as specified in the Department's agreement with Viacom. The item is included in Muni's budget as an abatement to expenditures.

351732-07999, Marketing (\$14,362)

This allocation includes an expenditure abatement from the Video Fund. Funds are appropriated from this source in FY2005 to purchase video equipment and are therefore recovered as an allocated share.

351733-07999, Legislative Affairs (\$125,361)

In 1989, Proposition B created the San Francisco County Transportation Authority (SFCTA) to administer funds generated by the county's one-half cent transportation sales tax. This tax was reauthorized through Proposition K in November 2003. Funding from the sales tax is essential for the planning, design and construction of major transportation projects within San Francisco, and is often used as local matching funds that qualify San Francisco to receive larger state and federal grants.

This allocation is a reimbursement, through Proposition K funds, of the labor associated with the Legislative Affairs staff. For accounting purposes, this item is included in the Muni budget as an allocated charge and is recorded as abatement to expenditures (negative expenditures) instead of as revenue.

359020-081C5, CPG Admin, TIS-ISD DTIS \$20,000

This allocation funds annual fees for the Geographic Information System (GIS) base map maintained by the Department of Telecommunications and Information Services (DTIS). DTIS maintains a Citywide base map which includes digital aerial orthophotography, block and lot spatial data, street centerline and intersection network, and planimetric features such as curbs, pavement and bridges.

Muni uses the GIS base map for planning agency-wide. Such agency-wide planning includes incorporating base street data for the new Scheduling and Operator Dispatch System, using the data to determine the basis for the Automatic Vehicle Location System (AVL), incorporating incident locations to complement TransitSafe, and incorporating the census maps in the latest Short Range Transit Plan.

359020-081CT, CPG Admin, City Attorney Legal Services \$210,357

This item funds services provided to CPEA by the City Attorney's office. Services provided include oversight of FTA rules, reviews of Requests for Proposals and professional service contracts, litigation advice, and assistance with real estate transactions.

359020-081ET, CPG Administration, TIS Telephone \$2,000

This allocation funds services provided by DTIS, and includes telephone usage, cellular phone usage, voice mail monthly rental, data circuits, monthly pager costs and miscellaneous pass-through billing costs.
