

Options 1, 2 and 3

Adjust Peak Frequency to 12 Minutes and Midday Frequency to 15 Minutes

Current Service: Operates between Fisherman's Wharf and the Navy Yard with every other trip turning short at Townsend/8th streets during the midday. Peak period frequency is 10 minutes. Midday frequency is 12 minutes north of Townsend Street and 24 minutes south of Townsend Street.

Recommendation: Reduce peak period frequency from 10 to 12 minutes and change midday frequency to 15 minutes along entire route.

Alternative Service: Frequency change only.
